Quickstart Guide

CANON XA20 CAMCORDER

Step 1:
Supply battery to the camcorder with either a battery or a power adapter.

Step 2:
Flick the power switch to *CAMERA* to turn on the camcorder.

Step 3:
Open the monitor screen.

Step 4:
Open the lens hood.

Step 5:
Set the shooting mode to *AUTO*.

Step 6:
Use the zoom rocker to control the lens zoom.

Step 7:
Press the **START/STOP** button to begin recording and again to end the recording.

Step 8:
To review recorded footage in camera, flick the power switch to **MEDIA** and select the clip for playback by navigating the touch screen.
