

Quickstart Guide

HYPOP LIGHTING KIT

Step 1:

Set up a tripod to required height.

Step 2:

Open a softbox and mount onto the tripod.

Step 3:

Screw in a lightbulb into softbox fixture. For safety, make sure there is no power being supplied to the unit at this stage and the power switch is set to the **OFF** position.

Step 4:

Attach the diffusion sheet via the velcro attachments on the edge of the softbox.

Step 5:

Supply power to the light and turn the power switch to the ON position.

Step 6:

Adjust the angle of the softboxes as required.

Step 7:

Repeat for other lights you wish to use.
