

Quickstart Guide

ZOOM H6

Left

Front

Right (back)

Bottom

XLR

TRS

Step 1:

Supply power to the unit using 4x AA batteries or an AC adapter and USB cable.

Step 2:

Connect the audio source(s) that are to be recorded to the unit. If you are using the packaged Zoom mics, connect the **XY mic** or **MS mic** to the unit. Audio cables can be connected to **Inputs 1-4**.

Step 3:

Power the unit on by sliding and holding the **Power switch** until the unit turns on.

Step 4:

Press the track button corresponding to the track that you want to record. For example, if you have an XLR cable connected to **Input 1**, press **1** to activate that track for preview and recording. If you are using the **XY mic** or **MS mic**, press **L & R**.

Step 5:

Turn the **Input volume** dial for the selected input to adjust the input level.

Step 6:

Press the **Record** button to start recording. The ring around the record button will begin blinking.

Step 7:

Press the **Play/pause** button to pause the recording and then again to resume the recording.

Step 8:

To end the recording, press the **Stop** button.
